# GOSSAN RESOURCES LIMITED CONDENSED INTERIM FINANCIAL STATEMENTS THREE MONTHS ENDED JUNE 30, 2012 (EXPRESSED IN CANADIAN DOLLARS) (UNAUDITED)

#### MANAGEMENT'S RESPONSIBILITY LETTER

Management acknowledges responsibility for the preparation and presentation of the unaudited condensed interim financial statements, including responsibility for significant accounting judgments and estimates and the choice of accounting principles and methods that are appropriate to the Company's circumstances. The unaudited condensed interim financial statements have been prepared in accordance with International Accounting Standard 34 - Interim Financial Reporting, using accounting policies consistent with International Financial Reporting Standards appropriate in the circumstances.

Management has established processes, which are in place to provide them sufficient knowledge to support management representations that they have exercised reasonable diligence that (i) the unaudited condensed interim financial statements do not contain any untrue statement of material fact or omit to state a material fact required to be stated or that is necessary to make a statement not misleading in light of the circumstances under which it is made, as of the date of and for the periods presented by the unaudited condensed interim financial statements and (ii) the unaudited condensed interim financial statements fairly present in all material respects the financial condition, results of operations and cash flows of the Company, as of the date of and for the periods presented by the unaudited condensed interim financial statements.

The Board of Directors is responsible for reviewing and approving the unaudited condensed interim financial statements together with other financial information of the Company and for ensuring that management fulfills its financial reporting responsibilities. An Audit Committee assists the Board of Directors in fulfilling this responsibility. The Audit Committee meets with management to review the financial reporting process and the unaudited condensed interim financial statements together with other financial information of the Company. The Audit Committee reports its findings to the Board of Directors for its consideration in approving the unaudited condensed interim financial statements together with other financial information of the Company for issuance to the shareholders.

Management recognizes its responsibility for conducting the Company's affairs in compliance with established financial standards, and applicable laws and regulations, and for maintaining proper standards of conduct for its activities.

#### NOTICE TO READER

The accompanying unaudited condensed interim financial statements of the Company have been prepared by and are the responsibility of management. The unaudited condensed interim financial statements have not been reviewed by the Company's auditors.

NOTES TO INTERIM CONDENSED FINANCIAL STATEMENTS THREE MONTHS ENDED JUNE 30, 2012 (Expressed in Canadian Dollars) (Unaudited)

#### 1. Nature of Operations and Going Concern

Gossan Resources Limited (the "Company") is a public corporation that was incorporated federally on June 16, 1980. The Company, directly and through joint ventures is in the business of acquiring and exploring resource properties that it believes contain mineralization. To date, the Company and is considered to be in the exploration and development stage.

The Company's head office is located at 171 Donald Street, Suite 404, Winnipeg, Manitoba, Canada, R3C 1M4.

These financial statements have been prepared on the basis of a going concern, which presumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business. The Company has not earned significant revenues. The ability of the Company to continue as a going concern and the recoverability of amounts shown for mineral properties are dependent upon the discovery of economically recoverable reserves; confirmation of the Company's ownership in the underlying mineral claims; the acquisition of required permits to mine; the ability of the Company to obtain necessary financing to complete exploration and development; and the future profitable production or proceeds from disposition of such properties. These financial statements do not give effect to adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern. All of these outcomes are uncertain and taken together cast doubt over the ability of the Company to continue as a going concern.

As the Company has no revenue producing mines, the Company's ability to continue as a going concern is dependent upon its ability to raise funds in the capital markets, or through the sale of assets or net cash flows from operations from its subsidiary.

The Company is traded on the TSX Venture Exchange under the symbol "GSS" and on the Frankfurt/Freiverkehr & Xetra Exchanges under the symbol "GSR" (WKN 904435).

The financial statements were approved by the Board of Directors on August 29, 2012.

Gossan is at an early stage of development and as is common with many exploration companies, it raises financing for its exploration and acquisition activities in discrete tranches. The Company had working capital of \$1,106,038 at June 30, 2012 (March 31, 2012 - of \$1,311,290). At June 30, 2012, the Company had sufficient funds to finance its current exploration plans and expects to be a going concern for the next twelve months. Further financing will be required for operations beyond the next twelve months. While there is no assurance these funds can be raised, the Company believes such financing will be available as required. The Company's discretionary exploration activities do have considerable scope for flexibility in terms of the amount and timing of exploration expenditure, and expenditures may be adjusted accordingly.

#### 2. Accounting Policies

#### a) Statement of Compliance

These unaudited condensed interim financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting. Accordingly, they do not include all of the information required for full annual financial statements required by IFRS as issued by IASB and interpretations issued by IFRIC.

#### b) Basis of Preparation

The financial statements are presented in Canadian dollars. The financial statements are prepared on the historical cost basis or the fair value basis for certain financial instruments.

NOTES TO INTERIM CONDENSED FINANCIAL STATEMENTS THREE MONTHS ENDED JUNE 30, 2012 (Expressed in Canadian Dollars) (Unaudited)

### 2. Accounting Policies (Continued)

#### c) Significant Accounting Policies

The Company's annual financial statements have been prepared in accordance with IFRS issued by the International Accounting Standards Board ("IASB") and interpretations issued by the IFRS Interpretations Committee ("IFRIC").

## 3. Capital Management

The Company manages its capital with the following objectives:

- To ensure sufficient financial flexibility to achieve the ongoing business objectives including funding of future growth opportunities, and pursuit of accretive acquisitions; and
- To maximize shareholder return through enhancing the share value.

The Company monitors its capital structure and makes adjustments according to market conditions in an effort to meet its objectives given the current outlook of the business and industry in general. The Company may manage its capital structure by issuing new shares, repurchasing outstanding shares, adjusting capital spending, or disposing of assets. The capital structure is reviewed by Management and the Board of Directors on an ongoing basis.

The Company considers its capital to be shareholders' equity, comprising share capital, contributed surplus, warrants, and deficit, which at June 30, 2012, totalled \$1,110,091 (March 31, 2012 - \$1,315,765)

The Company manages capital through its financial and operational forecasting processes. The Company reviews its working capital and forecasts its future cash flows based on operating and capital expenditures, and other investing and financing activities. The forecast is updated based on activities related to its mineral properties. Selected information is provided to the Board of Directors of the Company. The Company's capital management objectives, policies and processes have remained unchanged during the six months ended June 30, 2012. The Company is not subject to externally imposed capital requirements.

#### 4. Mineral Property and Financial Risk Factors

#### a) Mineral Property Risk

The Company's major mineral properties are listed in Note 5. Unless the Company acquires or develops additional material mineral properties, the Company will be mainly dependent upon its existing properties. If no additional major mineral properties are acquired by the Company, any adverse development affecting the Company's properties would have a materially adverse effect on the Company's financial condition and consolidated results of operations.

## b) Financial Risk

The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk (including interest rate, foreign currency rate, commodity and equity price risk).

Risk management is carried out by the Company's management team with guidance from the Audit Committee under policies approved by the Board of Directors. The Board of Directors also provides regular guidance for overall risk management.

NOTES TO INTERIM CONDENSED FINANCIAL STATEMENTS THREE MONTHS ENDED JUNE 30, 2012 (Expressed in Canadian Dollars) (Unaudited)

## 4. Mineral Property and Financial Risk Factors (Continued)

#### b) Financial Risk (Continued)

#### Credit Risk

Credit risk is the risk of loss associated with a counterparty's inability to fulfill its payment obligations. The Company's credit risk is primarily attributable to cash, short term investments and accounts receivable. Cash and short term investments are held with select major Canadian chartered banks, from which management believes the risk of loss to be minimal.

Management believes that the credit risk with respect to financial instruments included in accounts receivable is minimal. Other accounts receivable consist of sales tax receivable from government authorities in Canada. Accounts receivable are in good standing as of June 30, 2012.

#### Liquidity Risk

Liquidity risk is the risk that the Company will not have sufficient cash resources to meet its financial obligations as they come due. The Company's liquidity and operating results may be adversely affected if its access to the capital market is hindered, whether as a result of a downturn in stock market conditions generally or matters specific to the Company. The Company generates cash flow primarily from its financing activities. As at June 30, 2012, the Company had cash from continuing and discontinued operations of \$1,073,300 (March 31, 2012 - \$1,379,865) to settle current liabilities of \$216,547 (March 31, 2012 - \$345,091). All of the Company's financial liabilities have contractual maturities of less than 30 days and are subject to normal trade terms. The Company regularly evaluates its cash position to ensure preservation and security of capital as well as liquidity.

## Market Risk

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign currency rates, and commodity and equity prices.

#### Interest Rate Risk

The Company has cash balances and no interest-bearing debt. The Company's current policy is to invest excess cash in guaranteed investment certificates or interest-bearing accounts of major Canadian chartered banks. The Company regularly monitors compliance to its cash management policy.

#### Foreign Currency Risk

The Company's functional and reporting currency is the Canadian dollar and major purchases are transacted in Canadian dollars. As a result, the Company's exposure to foreign currency risk is minimal.

#### Price Risk

The Company is exposed to price risk with respect to commodity and equity prices. Equity price risk is defined as the potential adverse impact on the Company's earnings due to movements in individual equity prices or general movements in the level of the stock market. Commodity price risk is defined as the potential adverse impact on earnings and economic value due to commodity price movements and volatilities. The Company closely monitors commodity prices, as they relate to gold, vanadium, titanium, base metals, PGE's, magnesium, aluminum, proppant sand, individual equity movements, and the stock market to determine the appropriate course of action to be taken by the Company.

NOTES TO INTERIM CONDENSED FINANCIAL STATEMENTS

**THREE MONTHS ENDED JUNE 30, 2012** 

(Expressed in Canadian Dollars)

(Unaudited)

## 4. Mineral Property and Financial Risk Factors (Continued)

b) Financial Risk (Continued)

#### **Sensitivity Analysis**

Based on management's knowledge and experience of the financial markets, the Company believes the following movements are reasonably possible over a three-month period:

- (i) The Company has no term debt and receives low interest rates on its cash balances. As such the Company does not have significant interest rate risk.
- (ii) The Company does not hold balances in foreign currencies to give rise to exposure to foreign exchange risk.
- (iii) Commodity price risk could adversely affect the Company. In particular, the Company's future profitability and viability from mineral exploration depends upon the world market price of valuable minerals. Commodity prices have fluctuated significantly in recent years. There is no assurance that, even as commercial quantities of minerals may be produced in the future, a profitable market will exist for them.

As of June 30, 2012, the Company is not a producer of valuable minerals. As a result, commodity price risk may affect the completion of future equity transactions such as equity offerings and the exercise of stock options. This may also affect the Company's liquidity and its ability to meet its ongoing obligations.

(iv) Mineral property risk is significant. In particular, if an economic orebody is not found, the Company cannot enter into commercial production and generate sufficient revenues to fund its continuing operations. There can be no assurance that the Company will generate any revenues or achieve profitability or provide a return on investment in the future from any of the properties it may have an interest in.

#### 5. Exploration and Evaluation Expenditures

## 7. Share Capital

a) Authorized share capital

At June 30, 2012, the authorized share capital consisted of unlimited number of common shares. The common shares do not have a par value.

b) Common shares issued

At June 30, 2012, the issued share capital amounted to \$11,844,894. The change in issued share capital for the period is as follows:

Niumbar of

	Common Shares	Amount
Balance, March 31, 2011	29,207,900 \$	
Exercise of options - cash Exercise of options - Black-Scholes valuation	70,000	10,404
Exercise of options - black-Scholes valuation	<del>-</del>	3,450
Balance, June 30, 2011	29,277,900	11,354,448
Balance, March 31, 2012 and June 30, 2012	33,140,400 \$	11,844,894

#### 8. Stock Options

The following table reflects the continuity of stock options for the period ended June 30, 2012:

	Number of Stock Options	Weighted Average Exercise Price (\$)	
Balance, March 31, 2011	1,910,000	0.25	
Granted	840,000	0.17	
Exercised	(70,000)	0.15	
Expired	(380,000)	0.45	
Balance, June 30, 2011	2,300,000	0.19	
Balance, March 31, 2012	1,780,000	0.17	
Granted	860,000	0.16	
Expired	(140,000)	0.17	
Balance, June 30, 2012	2,500,000	0.16	

<sup>(</sup>i) On April 13, 2012, the Company granted 200,000 incentive stock options to an investor relations consultant of the Company. The options are exercisable at \$0.16 per share, expire on September 21, 2015, and vest at a rate of 25% every three months. The resulting fair value of \$12,000 was estimated using the Black-Scholes option pricing model with the following assumptions: expected dividend yield of 0%; expected volatility of 85%; a risk-free interest rate of 1.2% and an expected average life of 2.3 years. During the three months ended June 30, 2012, \$6,250 was charged to the Company's statement of loss and comprehensive loss.

NOTES TO INTERIM CONDENSED FINANCIAL STATEMENTS THREE MONTHS ENDED JUNE 30, 2012 (Expressed in Canadian Dollars)

(Unaudited)

## 8. Stock Options (Continued)

- (ii) On April 13, 2012, the Company granted 250,000 incentive stock options to consultants, officers and directors of the Company. The options are exercisable at \$0.16 per share, expire on September 21, 2015, and vest immediately upon grant. The resulting fair value of \$15,000 was estimated using the Black-Scholes option pricing model with the following assumptions: expected dividend yield of 0%; expected volatility of 85%; a risk-free interest rate of 1.2% and an expected average life of 2.3 years.
- (iii) On April 13, 2012, the Company granted 130,000 incentive stock options to consultants, officers and directors of the Company. The options are exercisable at \$0.16 per share, expire on March 21, 2016, and vest immediately upon grant. The resulting fair value of \$8,320 was estimated using the Black-Scholes option pricing model with the following assumptions: expected dividend yield of 0%; expected volatility of 85%; a risk-free interest rate of 1.2% and an expected average life of 2.6 years.
- (iv) On April 13, 2012, the Company granted 280,000 incentive stock options to consultants, officers and directors of the Company. The options are exercisable at \$0.16 per share, expire on March 21, 2017, and vest immediately upon grant. The resulting fair value of \$19,600 was estimated using the Black-Scholes option pricing model with the following assumptions: expected dividend yield of 0%; expected volatility of 85%; a risk-free interest rate of 1.2% and an expected average life of 3.1 years.

The resulting fair value for the above noted stock options is included in general and administrative expense on the Company's interim statements of loss and comprehensive loss

The following table reflects the actual stock options issued, outstanding as of June 30, 2012:

Weighted Average					
Expiry Date	Exercise Price (\$)	Remaining Contractual Life (years)	Number of Options Outstanding		
March 28, 2013	0.20	0.74	190,000		
March 25, 2014	0.16	1.73	70,000		
March 28, 2014	0.15	1.74	460,000		
March 26, 2015	0.17	2.74	690,000		
September 21, 201	5 0.16	3.23	450,000		
March 21, 2016	0.16	3.73	130,000		
March 25, 2016	0.16	3.74	80,000		
March 26, 2016	0.17	3.74	150,000		
March 21, 2017	0.16	4.73	280,000		
	0.16	2.83	2,500,000		

Of the 2,500,000 options outstanding, 2,350,000 are exercisable

#### 9. Warrants

The following table reflects the continuity of warrants for the period ended June 30, 2012:

	Number of Stock Options	Weighted Average Exercise Price (\$)	
Balance, March 31, 2011 and June 30, 2011	nil	nil	
Balance, March 31, 2012 and June 30, 2012	3,772,500	0.24
